Hi Hart District Council,

Thank you for your email.

Regarding planning application 26/01201/OUT, National Grid Electricity Transmission have no objection to the proposal provided:

- The statutory clearances our overhead lines are maintained at all times from any buildings, structures, roads, trees, and from any plant used during construction.
- A minimum stand-off of 15m from our towers to any buildings, structures and drainage is maintained to ensure sufficient space is available for our continued maintenance activities.
- There are no conflicts with our existing overhead line easements and our access to our towers is not restricted.

Please note this response is only in reference to National Grid Electricity Transmission assets only.

Kind regards,

NGET Asset Protection Team
